Wednesday, March 18, 2026
7:15am-8:15am

Emaad Siddiqui, MD

Cardiology Fellow, Rutgers New Jersey Medical School, Newark,
New Jersey

Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Apply current evidence-based guidelines and recent clinical trial data to inform decision-making in coronary and structural heart interventions.
- Enhance procedural performance and safety by incorporating advanced imaging modalities and physiologic assessment tools into routine practice.
- Implement best practices for managing high-risk and complex interventional cases, including those involving multivessel disease, left main disease, and cardiogenic shock.
- Improve team-based communication and coordination in the cath lab to optimize workflow efficiency and patient outcomes.

Target Audience

This activity is designed for physicians (including cardiothoracic and vascular surgeons, cardiology attendings and fellows, surgical and internal medicine residents, and medical students) and other medical personnel (cardiovascular-trained nursing and technology staff, and EMS) interested in cardiovascular disease.

Accreditation

In support of improving patient care, Rutgers Biomedical and Health Sciences is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physicians: Rutgers Biomedical and Health Sciences designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 1.0 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Disclosure Declarations

Emaad Siddiqui, MD has no relevant financial relationships with ineligible companies to disclose.

Speakers are required to disclose discussion of off-label/investigational uses of commercial products/devices in their presentation. These disclosures will be made to the audience at the time of the activity.

Planning Committee: Marc Klapholz, MD, MBA (Activity Director), has the following relevant financial relationships with ineligible companies: Member, Data Safety Monitoring Board: Blackbeat Medical; Member, End Point Steering Committee: Endotronix. Content Reviewers: Kajol Shah MD, Emaad Siddiqui MD, and Abhishek Sharma, MD, have no relevant financial relationships with ineligible companies to disclose. All of the relevant financial relationships listed have been mitigated.

Rutgers Health CE Staff: Patrick Dwyer and Elizabeth Ward have no relevant financial relationships with ineligible companies to disclose.
