- Add faculty – COI – Upload - status = In Review

One or more relationships exist for Jennifer Donnelly, DO. Please obtain the presentation for this faculty member and upload it to begin the peer review process.

Upload PowerPoint/PDF/Video
Instructions: Upload a faculty PowerPoint/PDF file or video (AVI/MP4) file for the selected presentation. If your filename contains spaces, the & or ? character, rename your file before uploading, so that it does not contain spaces, ? or &. Select the file and it will automatically begin uploading and a progress bar will display. DO NOT close this window or navigate during the upload process. When the file has completed upload, the 'Process File' button will become active and you can click it to save this file. If the file is a PowerPoint, it will be converted to Adobe Acrobat PDF format for use in the Syllabus. Note: If you are uploading a video the current limit is set to 4GB. Please refrain from uploading anything larger than this size.

3 - What is the Evidence on ACL Prevention Programs - Morgani.pptx

Optional Note:
The file is now processing and being converted. Depending on file size, this process may take a long time.

Yes + No = Reject
Yes + Yes = Attest
Sign and Submit
Status Changes

Part I: If Yes:

Does the faculty disclosure form indicate the presence of real or potential conflict of interest?
- Yes
- No

Can the conflict be resolved by peer review?
- Yes
- No

Part II: Please proceed to review the presentation and record the following findings:

This presentation is based on acceptable scientific principles that are generally accepted as valid by the profession.
- Yes
- No

This presentation’s content and clinical recommendations are based on the highest available levels of evidence that are accepted in the general medical community.
- Yes
- No

Scientific research referred to in this presentation conforms to generally accepted standards of experimental design, data collection and analysis and limitations are disclosed (e.g. ongoing research, interim analyses, preliminary data).
- Yes
- No

The content promotes improvements or quality in healthcare and not specific proprietary business interest of a commercial interest; it provides a balanced view of therapeutic options - use of generic names will contribute to this impartiality - If the educational material or content includes trade names, where available, trade names from several companies should be used, not just from a single company.
- Yes
